

SHIPERP
INTEGRATED SOLUTIONS

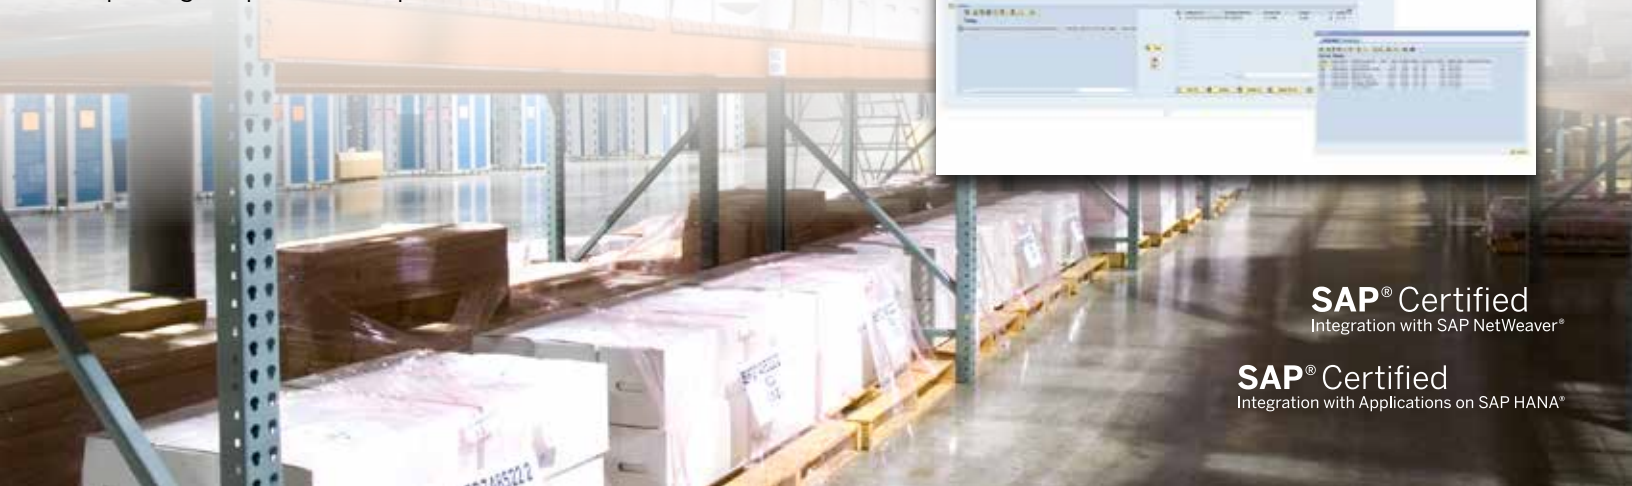

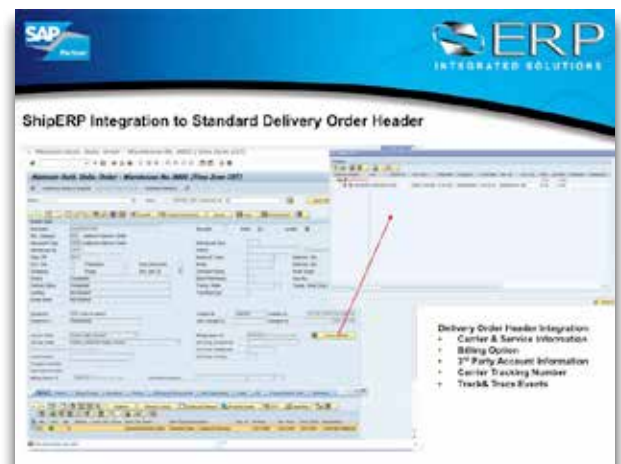

SHIPERP™

ShipERP™ for SAP® Extended Warehouse Management 100% Natively Integrated!

ShipERP™ is a natively integrated multi-carrier shipping solution designed and certified for integration SAP Netweaver® and SAP HANA®. The **ShipERP™** solution performs real-time carrier: rate quoting, shipment creation, shipment tracking, proof of delivery and label/documentation printing. The solution is completely configurable and provides the shipper the ability to rapidly pack and ship products directly out of SAP EWM. Basing the design of **ShipERP™** on SAP's Enterprise Service Oriented Architecture (SOA) enables security, flexibility and business efficiency during the warehouse management shipping process without the need for any middleware.

Shipping with Multiple Carriers Has Never Been Easier!

The days of maintaining multiple carrier shipping systems and internal interfaces are a thing of the past! **ShipERP™** fully integrates with the leading carrier systems, including but not limited to FedEx, UPS, USPS, DHL, TNT, Canada Post and Purolator. As an added benefit **ShipERP™** can be integrated with Logistic Service Providers to leverage the visibility into carrier capacity, optimize transportation spending and provide a complete and cost-effective solution.
